

myFlex Dental Insurance. All differences from the previous SC at a glance.

You can find the complete Supplementary Conditions (SC) for "myFlex Dental Insurance" in the Downloads section of our website: css.ch/amendments

	To date SC Version 01.2011	New SC Version 01.2027
Art. 3.4	CSS Emergency Center must be consulted immediately if treatment is required abroad. Benefits will only be provided if the CSS Emergency Center approves and /or organizes the treatment.	If treatment is required abroad the CSS Emergency Centre must be contacted immediately (in particular before hospitalisation); it will organise and coordinate the treatment and issue commitments to provide cover. If the medical treatment is not organised and approved by the CSS Emergency Centre, the entitlement to benefits may be reduced within the scope of the insured person's obligation to mitigate the loss (Art. 24.1 GIC), or if the obligations in the event of a claim (in particular the obligations to provide information, to submit to an examination, to notify and to obtain a commitment to provide cover; Art. 25) are breached, benefits may be refused or determined at the discretion of CSS (Art. 26 GIC). This does not apply to medical treatment where there is danger in delay.
