Calculation of cost sharing

CSS's share of costs is calculated on the basis of the invoice amount and reduced to match the maximum amount permitted for the product. If the benefit arrived at in this way exceeds the invoice amount, the benefit is reduced to match the invoice amount. If you also hold outpatient insurance, benefits from the two insurance policies are added together up to a maximum of the amount billed. In this case, benefits from outpatient insurance are always counted first, and then supplemented with those from Dental Care Insurance.

- Outpatient supplementary insurance (50 %, max. CHF 12,000 up to the age of 20)**
 Year 1: CHF 4,000 × 50 % = CHF 2,000
- Dental Care Insurance (50 %, max. CHF 1,000/CY)**
 Year 1: CHF 4,000 × 50 % = CHF 2,000 > reduced to maximum amount of CHF 1,000 per year
 Year 4: CHF 2,000 × 50 % = CHF 1,000 > no reduction because maximum amount of CHF 1,000 per year is not exceeded
- Dental Care Insurance (75 %, max. CHF 3,000/CY)**
 Year 1: CHF 4,000 × 75 % = CHF 3,000 > reduced to CHF 2,000 (invoice amount: CHF 4,000)
- Dental Care Insurance: (75 %, max. CHF 5,000/CY, CHF 500 deductible/CY)**
 Year 1: CHF 4,000 × 75 % = CHF 3,000 > reduced to CHF 2,000 (bill amount: CHF 4,000), less the deductible of CHF 500 = CHF 1,500
