

# Trainees and Guests – the insurance for trainees and guests.

Trainees and Guests Insurance protects your trainees and your guests from abroad during a stay in Switzerland – in the event of illness, accident, disability or death.

## Protection for trainees and guests.

If you employ trainees from abroad or receive guests from around the globe at your company, you will often find they have insufficient insurance for Swiss circumstances. Trainees and Guests Insurance covers any gaps that may exist.

## Medical costs including personal assistance.

In the event of illness or accident, all medically prescribed treatment measures are covered up to the agreed sum insured. Within the scope of personal assistance, the costs of emergency transport to the nearest hospital, repatriation and search and rescue costs are all covered. For inpatient treatment, the rate for the general class (multi-bed room) applies.

## Disability lump sum.

If an insured person is likely to be permanently disabled as the result of an accident or aircraft accident, CSS Insurance will pay the agreed lump sum in accordance with the degree of disability.

## Death lump sum.

If an insured person dies as the result of an accident or an aircraft accident, CSS Insurance will play the agreed lump sum to the person specified in writing by the insured person.

## Your advantages:

- 24-hour access to the CSS Assistance Centre
- Quick and straightforward help
- Attractive no-claims discount
- Exact premium statement based on declaration of visitor days

vivit, the competence centre for health and prevention of CSS Insurance, provides you with advice and support on all issues related to company health management.
